

OFFER OF EMPLOYMENT

Paragraph 01 of the offer letter.

This document carries three incremental updates, as produced by electronic-signature services: each revision appends an xref section chained by /Prev and the latest trailer keeps /Root on the base revision's catalog object.

The extraction pipeline must walk the full /Prev chain to resolve objects defined in earlier revisions.

Base salary, start date, and reporting line appear on page 1.

Benefits summary appears on page 2.

Equity grant terms appear on page 3.

Signature blocks appear on page 4.

CONFIDENTIAL - generated synthetic fixture, not a real letter.

OFFER OF EMPLOYMENT

Paragraph 02 of the offer letter.

This document carries three incremental updates, as produced by electronic-signature services: each revision appends an xref section chained by /Prev and the latest trailer keeps /Root on the base revision's catalog object.

The extraction pipeline must walk the full /Prev chain to resolve objects defined in earlier revisions.

Base salary, start date, and reporting line appear on page 1.

Benefits summary appears on page 2.

Equity grant terms appear on page 3.

Signature blocks appear on page 4.

CONFIDENTIAL - generated synthetic fixture, not a real letter.

OFFER OF EMPLOYMENT
