

SCANNED BODY ACCEPTANCE FIXTURE

This body is raster content beneath a separate vector header and sidebar. The OCR transcript covers only the scanned body so the vector layer can be checked independently by the routing verifier.

Document ID MIXED 300. Review date September 28 2026.

The expected extraction route is mixed vector and scanned content.

VECTOR HEADER - MIXED PAGE ROUTING

The right column is real PDF text.

The left column is scanned image content.

Expected page type: mixed.
